

British College of **Aesthetic Medicine**

**THE BRITISH COLLEGE OF AESTHETIC MEDICINE CONFERENCE
LONDON 2020
Education in Aesthetic Medicine**

'Call For Papers'

Guidelines for Speakers

When preparing your abstract, please bear in mind the theme and philosophy of the Conference. The theme is 'The Leading Edge of Aesthetic Medicine'. For 2020, we would like to invite abstracts from around the globe that will encourage both discussion but also drive practical partnership opportunities within broad thematic areas, including:

- Sharing of clinical good practice and breakthroughs
- Advancing Aesthetic Medicine internationally
- Showcasing high quality research in Aesthetics
- Making the Aesthetic case with Governments, funders, policymakers and other stakeholders

The list is not exhaustive. In short, if you think you have an established treatment, please get in touch.

Your paper should have a short, descriptive title, and should aim to provide learning points which will draw the attention of other aesthetic colleagues.

Your submission should include your name, address, telephone number and email address, and your paper should not exceed 250 words, excluding title, your name, etc. Please submit your paper using the template below. The quickest way to get your submission to us is to email it to dawn.larcombe@bcam.ac.uk

If you are not able to send by email please send a hard copy marked for the attention of Dawn Larcombe at address.

Please note the **submission deadline** which is **Sunday 29th February 2020**. We look forward to hearing from you and meeting you in London in September 2020.

Mr Greg White, CEO, British College of Aesthetic Medicine

On behalf of the Organising Committee
